

Anne Matsuura, Director of Quantum Applications and Architecture, Intel Labs

Anne Matsuura is the director of Quantum Applications and Architecture at Intel Labs.

She has previously been chief scientist of the Optical Society (OSA), chief executive of the European Theoretical Spectroscopy Facility (ETSF), senior scientist in the Bio/Nano/Chem Group at In-Q-Tel, and program manager for atomic and molecular physics at the U.S. Air Force Office of Scientific Research.

She has also been a researcher at Lund University in Sweden, Stanford University and the University of Tokyo; a Fulbright Scholar to Nagoya University; and an adjunct professor in the physics department at Boston University.

Dr. Matsuura received her Ph.D. in physics from Stanford University.
