LEGAL DISCLOSURES

Statements during this event that refer to business outlook, future plans and expectations are forward-looking statements that involve a number of risks and uncertainties. Words such as "anticipates," "expects," "intends," "goals," "plans," "believes," "seeks," "estimates," "continues," "may," "will," "should," "potential," "opportunities," variations of such words and similar expressions are intended to identify such forward-looking statements. Statements that refer to or are based on projections, uncertain events, or assumptions also identify forward-looking statements. Such statements are based on management's current expectations, unless an earlier date is indicated, and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in these forward-looking statements. Important factors that could cause actual results to differ materially from the company's expectations are set forth in the company's annual report on Form 10-K and 10-Q, copies of which are filed with the Securities and Exchange Commission and are available via our Investor Relations website at https://www.intel.com or the SEC's website at www.sec.gov.

All information presented during this event reflects management's views as of the date of this presentation, unless an earlier date is indicated. Intel does not undertake, and expressly disclaims any duty, to update any statement made in this presentation, whether as a result of new information, new developments or otherwise, except to the extent that disclosure may be required by law.

All information provided herein is subject to change without notice. Contact your Intel representative to obtain the latest Intel specifications, roadmap, and related information.

Performance results are based on testing by Intel laboratories using specific computer systems, components, software, operations, and functions. Any change to any of these factors may cause the results to vary. You should consult other information and performance data to assist you in fully evaluating your contemplated purchases, including the performance of that product when combined with other products. For more complete information about performance and benchmark results, visit http://www.intel.com/benchmarks.

Intel technology test and benefits depend on system configuration and may require enabled hardware, software and/or service plan. Performance varies depending on system configuration. No computer system can be absolutely secure. Check with your system manufacturer or retailer or learn more at Intel.com. Any software and/or service plan provided by Intel is subject to the terms and conditions of the plan. Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade.
