

BACKGROUND

Investing in the Global Data Revolution

[Intel Capital](#) invests in innovative startups targeting artificial intelligence, autonomous technology, data center and cloud, 5G, next-generation compute, and a wide range of other disruptive technologies.

Investment Facts

Since 1991, Intel Capital has invested US\$12.4 billion in 1,544 companies in 57 countries. In that timeframe, 670 portfolio companies have gone public or participated in a merger.

Intel Capital does not disclose specific financial results from its investments, but the program has contributed billions in cash to Intel in its history while developing new technology ecosystems around the world.

2018 Activity:

- \$391 million invested in 89 companies; 38 new investments and 51 follow on investments
- Lead investor in >66% of new investments
- 22% of investments made in diverse companies
- Four companies completed IPOs; 14 companies were acquired

Notable Investments

Intel Capital has made a number of well-known investments around the globe. These include AVG, Broadcom, CNET, Citrix Systems, Cloudera, Docusign, Elpida Memory, FPT, Gamalon, GoodData, Habana Labs, Inktomi, iZettle, Joby Aviation, Kingsoft, Lightbend, LogMeIn, Marvell, Mellanox, Moovit, MongoDB, MySQL, PCCW, RedHat, Sohu.com, YuMe, Virtustream and VMware.

International Investing

Intel Capital has invested in companies headquartered in 57 countries on six continents.

Differentiated Advantages

What sets Intel Capital apart is a collection of value-added benefits that enhance our relationships with entrepreneurs and open doors to new markets, customers, alliances, co-investors, and emerging technologies.

Among the key benefits of working with Intel Capital are:

- **Global Reach:** With offices in eight countries, and Intel offices in 60, we call on a vast network of resources in markets around the world. Intel Capital has insights into these markets, contacts with local customers and suppliers, and the ability to match our portfolio companies with customers across oceans and continents.
- **Worldwide Customer Access:** Intel Capital facilitates regular, targeted meetings with the right decision-makers drawn from Intel's relationships with suppliers, partners and customers in every major market in the world. In 2018, Intel Capital hosted 62 [Intel Capital Technology Days](#) to help our portfolio companies engage with customer executives from Global 2000 companies.
- **Recognized Brand:** Intel is among the most recognized brands in the world. Intel connotes quality, integrity and innovation. It's a cachet that opens doors for our portfolio companies with customers and co-investors around the globe.
- **Technology Expertise:** Intel plays a lead role in the continued rise of technology around the world. Our portfolio companies are privy to our architecture roadmaps, gain access to our manufacturing and engineering knowledge, and can benefit from the work of our labs and factories.

Intel Capital Technology Days

In 2018, Intel Capital hosted 62 Intel Capital Technology Days (ITDs) with leading customers around the world. The standard ITD model brings about 10 portfolio companies to the host customer for a day of customer briefings, technology presentations, and demo showcases.

Previous ITD hosts include: ASUS, AT&T, BMW, BP, CapitalOne, Comcast, Daimler-Mercedes, Ford Research & Innovation Center, Fujitsu Electronics, General Motors Emerging IT Group, Hewlett-Packard, HSBC, Huawei, IBM, Lenovo, Microsoft, NASDAQ, NBC Universal, Panasonic, Procter & Gamble, Samsung, Sony Ericsson, Sprint, Target, Telefonica, Time Warner Cable, Toyota, and Verizon.
